CAPE SHORE CATCH.

Is 14,000 Barrels Salt and 8000 Barrels Fresh Mackerel.

Two Seiners at Newport Last Evening with Small Trips.

Five of the Cape Shore fleet have arrived since last report, schs. Shenandoah with 310 barrels salt mackerel; Mary F. Curtis, 55 barrels; Nellie Dixon, 210 barrels; Marguerite Haskins, 210 barrels; Avalon, 240 barrels. This morning but three of the Cape Shore fleet remained to arrive, schs. George Parker, reported with 31 barrels, Madonna, 140 barrels and Hattie M. Graham, 300 barrels. The Cape shore catch of salt mackerel, up to this morning is 13,265 barrels. This, with what is to come will make the total Cape Shore catch about 14,000 barrels of salt mackerel and 8000 barrels of fresh mackerel. Sch. Marguerite, one of the netters, was at Newport last night with 20 barrels of fresh mackerel. Sch. Independence II. was at Newport last evening with 5000 fresh mackerel and sch. Mary E. Harty was also there with the same amount. Sales at 13 each for large and 7 cents for mediums.

FOG TO SOUTHWARD.

Is Probably Hampering Operations of the Seining Fleet.

Only One of the Cape Shore Fleet Remains To Arrive.

Schs. Madonna and Hattie M. Graham arrived home from the Cape Shore yesterday afternoon, bringing the total of the Cape Shore salt catch up to 13,680 barrels. Sch. George Parker, which has 310 barrels of salt mackerel on board, is the only vessel of the Cape Shore fleet left to arrive, so that the total salt catch will be 13,990 barrels. Sch. Nellie Dixon went to Boston yesterday afternoon with her fare of salt mackerel, the trip selling to the Knowles-Freeman Fish Co. Sch. Saladin was at Newport yesterday afternoon with 2000 fresh mackerel. Capt. Spurling reports that the fish seem to have left the Rips and that he was going to Georges. The mackerel fleet to the southward must be bothered by fog as the steamer Bound Brook, at Boston yesterday, reports that from the South Shoal lightship she had fog for 100 miles. The fare of sch. Shenandoah sold to George Perkins & Son and that of sch. Madonna to Fred Bradley at \$9.50 per barrel.

ON MAINE COAST.

Small Mackerel Strike In Recently Off Wood Island.

Some Boats Get as High as Five Barrels Each.

Capt. G. F. O. Hanson of the U. S. Fish Commission sch. Grampus reports that small mackerel have struck on the Maine coast. A few days ago the fish struck in at Cape Porpoise, Kennebunk beach and Wood Island and now the boats are all netting for mackerel. The fish are about 10 inches long and the high boat that he heard of got five barrels. The catch of many of the boats ranged in the hundreds and all the fishermen were more than tickled to see the fish strike in. At Yarmouth, N. S., Wednesday, the traps took 10 bbls. of mackerel. There were a few mackerel at D'Escoisse, and plenty at Alberton, P. E. I.

ANOTHER BIG RECORD.

Put to the Credit of Hustling Capt. Clayton Morrissey.

W Off 389,000 Pounds Salt Cod, Stocked \$12,411.87.

Sch. Arethusa, Capt. Clayton Morrissey, weighed off 389,000 pounds of salt cod as the result of her recent salt trawl bank codfishing trip, making the enormous stock of \$12,411.85. This is believed to be the largest spring salt bank trip in the history of the salt bank codfishery and the stock is not only the largest ever made on a spring trip, but is one of the best ever made by a salt bank trawler at any season of the year. The sharesmen of the crew each made \$323.87 as a result of the trip, which is certainly a fine return for their labors. Capt. Morrissey has made many record-breakers in the course of his brilliant career but this latest achievement in the big knock-about tops all his previous efforts. He will now fit the craft for a second trip.

STEAM TRAWLER ARRIVES.

One of the Other Type Will Be Tried by Halifax Merchants.

An interesting addition to Nova Scotia's fishing fleet arrived at Canso, N. S., from Grimsby, England, Wednesday, in the steam trawler Wren. This boat has been purchased by Halifax parties to fish for cod and haddock. She is a steel boat of 136 tons, and made a good passage across in spite of rough weather. She is equipped with Otter trawls the same as are used in Europe, and is manned by a crew of North Sea fishermen who will operate them. Her work will be watched with much interest.
